THE STIMULUS CONTROL ROOM

RBT Study Guide SAFMEDS Deck

79 cards, one for each profile in the RBT Training Profiles study guide. Front: concept and task code. Back: the core definition from the guide.

Print

1. Print on US Letter at 100% (actual size). Do not use “fit to page.”
2. Print double-sided, **flip on long edge**. Each odd page holds 3 fronts and the next page holds the matching 3 backs.
3. Cut on the dashed lines. Each card is 6 in wide by 3 in tall.

Practice (SAFMEDS: Say All Fast a Minute Each Day Shuffled)

1. Shuffle the cards and set a 1-minute timer.
2. Read the front, say the definition aloud, then flip to check.
3. Correct: put the card in the correct pile. Incorrect: put it in the error pile.
4. When the timer ends, count each pile. Record both counts and repeat daily.

THE STIMULUS CONTROL ROOM

DOMAIN A

A.1

Latency

SAFMEDS · Say the definition, then flip

Card 3 of 79

THE STIMULUS CONTROL ROOM

A.1

A count of the number of times a behavior occurs. Dividing the count by the observation time gives rate.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

A.1

The total amount of time from the onset of a behavior to its offset (end).

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

A.1

The amount of time that elapses between the onset of a specific stimulus (such as an instruction or prompt) and the initiation of a behavior.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

DOMAIN A

A.1

Interresponse Time (IRT)

SAFMEDS · Say the definition, then flip

Functional Analysis

SAFMEDS · Say the definition, then flip

Card 23 of 79

THE STIMULUS CONTROL ROOM

DOMAIN C

C.1

Positive Reinforcement

SAFMEDS · Say the definition, then flip

Card 24 of 79

THE STIMULUS CONTROL ROOM

B.3

Direct observation of behavior in the natural environment, recording what happens before, during, and after it, without changing anything.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

B.3

A systematic assessment that manipulates antecedents and consequences in test conditions and compares behavior with a control condition to identify its function.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

C.1

A stimulus is added immediately after a behavior, and the behavior becomes more likely to occur in the future.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

DOMAIN C

C.1

Negative Reinforcement

THE STIMULUS CONTROL ROOM

DOMAIN C

C.4

Incidental Teaching

SAFMEDS · Say the definition, then flip

Card 30 of 79

THE STIMULUS CONTROL ROOM

C.2

A stimulus that was neutral becomes a reinforcer because it has been paired with a stimulus that already works as a reinforcer.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

C.3

A teaching format that breaks a skill into small units taught in repeated trials, each with a clear beginning and end.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

C.4

A naturalistic procedure in which the learner starts an interaction and the RBT uses that moment to teach a skill.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

THE STIMULUS CONTROL ROOM

DOMAIN C

C.5

Backward Chaining

SAFMEDS · Say the definition, then flip

Card 33 of 79

THE STIMULUS CONTROL ROOM

C.4

Teaching skills during everyday routines and activities in natural settings, using the learner's interests and natural reinforcers.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

C.5

Teaching the steps of a task analysis in order, starting with the first step. The learner performs the step being taught and the RBT completes the rest.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

C.5

Teaching the steps in reverse order. The RBT completes all steps except the last, which the learner performs. Earlier steps are added backward as each is mastered.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

DOMAIN C

C.7

Types of Prompts

SAFMEDS · Say the definition, then flip

Card 36 of 79

THE STIMULUS CONTROL ROOM

C.5

Teaching every step of the task analysis in each trial, with prompts only on the steps the learner cannot yet do.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

C.6

Teaching a learner to respond in the presence of one stimulus (the S^D) and not in the presence of another (the S^Δ), by reinforcing only the correct response.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

C.7

Added cues given before or during a response to help the learner respond correctly. Prompts are later faded.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

DOMAIN C

C.7

Least-to-Most Prompting

SAFMEDS · Say the definition, then flip

Errorless Teaching

SAFMEDS · Say the definition, then flip

Card 38 of 79

THE STIMULUS CONTROL ROOM

DOMAIN C

C.7

Stimulus Fading

SAFMEDS · Say the definition, then flip

Card 39 of 79

THE STIMULUS CONTROL ROOM

C.7

A prompt hierarchy that gives the learner a chance to respond independently first, then adds more intrusive prompts only as needed.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

C.7

Giving enough prompting at the start for the learner to respond correctly on nearly every trial, then fading the prompt across trials.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

C.7

Gradually changing a stimulus prompt, such as its size, color, or position, until the learner responds correctly to the target stimulus alone.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

Demand Fading

SAFMEDS · Say the definition, then flip

Card 51 of 79

THE STIMULUS CONTROL ROOM

D.2

Delivering a reinforcer on a fixed time schedule, whether or not the problem behavior occurs, to reduce the learner's motivation for the problem behavior.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

D.2

Delivering a series of requests the learner usually follows, then a request the learner is less likely to follow, and reinforcing compliance.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

D.2

Gradually increasing the number, difficulty, or length of demands over time, starting with an amount the learner handles without problem behavior.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

DOMAIN D

D.3

DRO (Differential Reinforcement of Other Behavior)

THE STIMULUS CONTROL ROOM

DOMAIN D

D.3

DRA (Differential Reinforcement of Alternative Behavior)

THE STIMULUS CONTROL ROOM

DOMAIN D

D.3

DRI (Differential Reinforcement of Incompatible Behavior)

THE STIMULUS CONTROL ROOM

D.3

Reinforcement is delivered when the problem behavior has not occurred for a set period of time.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

D.3

Reinforcing an alternative, appropriate behavior while the problem behavior is no longer reinforced.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.

THE STIMULUS CONTROL ROOM

D.3

Reinforcing a behavior that is physically incompatible with the problem behavior, so the two cannot occur at the same time.

Not affiliated with the BACB. © 2026 The Stimulus Control Room.
